RESINS | COMPOUNDING | RECYCLING

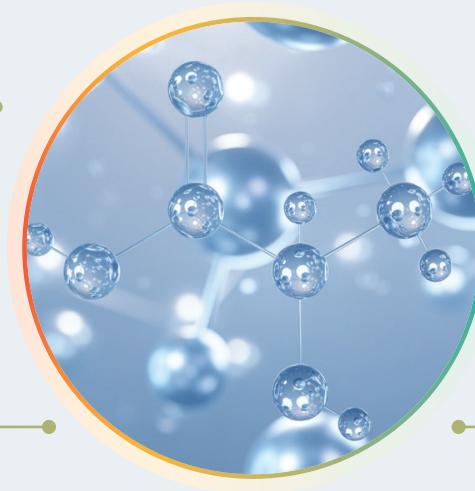

## Your preferred provider for Raw Materials Supply and Sustainability Solutions

Virgin Generic Prime Resins

Virgin Wide Spec Resins

Toll Pelletizing

Metal Removal

Post Industrial Recycled Resins

Post Consumer Recycled Resins

Toll Shredding & Size Reduction

Classification and Screening

### Generic Prime Accelene Resins

Accel Polymers has close relationships with some of the largest global resin brands and their distribution partners. In fact, we started as a subsidiary for one of the largest global resin brands. We supply PP, PE, PS, ABS and Nylon. If we don't have it, we can get it!

### Virgin Wide Spec & Off Grade Resins

We supply off grade and wide spec resin options to our customers in the Film Extrusion, Injection Molding, Blow Molding, Pipe Extrusion and Compounding segments. We can ship in Rail Car, Bulk Truck, Boxes, or Super Sacks

### Toll Pelletizing

Accel Polymers provides cost effective pelletizing services. We offer the highest quality cost-effective options for pelletizing postindustrial materials. With over 30 years of experience, we understand the importance of producing consistent, contamination-free reprocessed materials.

### Post Industrial Recycled Resins

Accel Polymers produces certified Post-Industrial Polypropylene, Polyethylene & Nylon 6 resins for use in the Industrial Packaging, Construction, Consumer Goods and Medical markets.

### Post Consumer Recycled Resins

Accel Polymers supplies post consumer High Density Polyethylene Ocean Bound Resins as well as Polypropylene certified PCR in a variety of specification options.

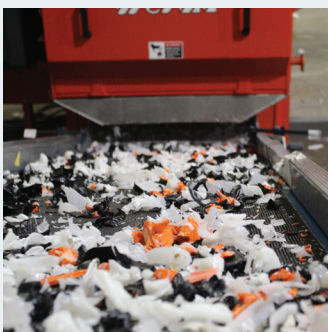

### Toll Processing Services

We are experts in large-volume post-industrial plastic Pelletizing, Shredding, Granulating, Metal Removal and Fines removal (Filtration/Aspiration). We have 100 years combined experience working with plastics manufacturers. As a full-service recycling company, we have an on-going need for clean plastic scrap and regrind, call us today to discuss pricing.

For questions or more information, visit [accelpolymers.com](http://accelpolymers.com)

Our cutting-edge recycling technologies and experience working with manufacturers and compounder's differentiate Accel Polymers from other plastics recyclers.

**Recycling Services**

**Specialty Services**

**Virgin Resins**

**Reprocessed**

### **Recycling Services**

Grinding, Washing, Metal Removal, Pelletizing and Classifying

### **Specialty Services**
